Art Unit: 1711

1. Claims 5, 6, 7 and 15 are generic to a plurality of disclosed patentably distinct species comprising various claimed polymers (in claim 5); different functional groups (in claim 6); norbornene, hexadiene and cyclopentadiene (in claim 7) and a long list of accelerators (in claim 15). Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Attorney Katharina Wang Schuster on April 27, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.
